

## Description

The Aurelion Index is an actively managed model portfolio that provides clients access to the firm's Buy-Rated equities and serves as a transparent way to track research performance. While not an investment fund open to capital, the securities included may be implemented on a per-security basis by institutional and other financially sophisticated investors at their discretion. Positions are equally weighted and rebalanced upon addition or removal.

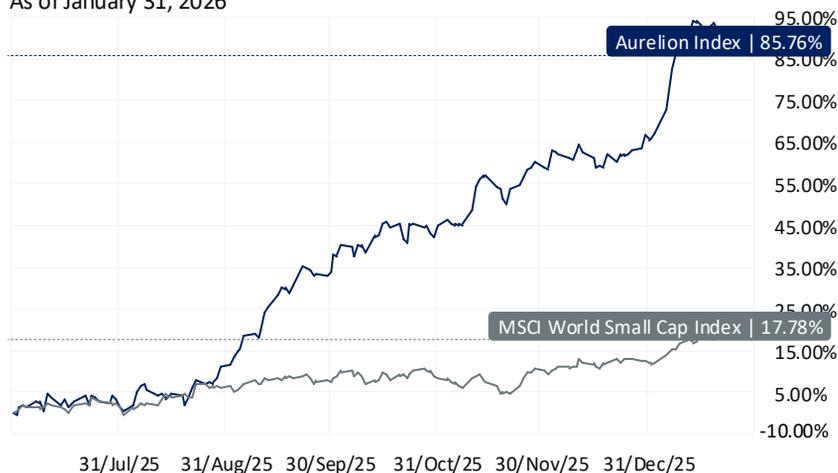

The Aurelion Index is long-only and invested in global equities across various sectors. Company selection is driven by bottom-up fundamental research, with an emphasis on direct company engagement and cash generation.

## Important Disclosures

The Aurelion Index is a model portfolio presented for performance purposes and is not open to external capital. Reported performance does not reflect fees, or trading costs and may be materially lower. Performance data may not be updated and is calculated in the local currencies of the security. Members of Aurelion Research may hold positions in, and may buy or sell, securities included in the Index at any time.

## Benchmark

The MSCI World Small Cap Index is used as the primary benchmark to reflect the global investment mandate and focus on smaller companies. Relative performance is calculated as the simple arithmetic difference between the Aurelion Index and the benchmark.

## Important Legal Information and Disclosures

This material is provided by Aurelion Research (“Aurelion”) for informational and educational purposes only. Aurelion is an independent equity research provider and is not registered as an investment adviser, broker-dealer, securities dealer, or fiduciary with any securities regulatory authority. This material is intended for institutional investors and other financially sophisticated persons capable of independently evaluating the information and associated risks. Nothing herein constitutes investment advice, a recommendation, an offer, or a solicitation to buy or sell any security, nor does it create any advisory or fiduciary relationship.

Any performance figures referenced relate to the Aurelion Index, a hypothetical model portfolio constructed for illustrative purposes only. The Index does not represent an actual investment product, is not managed on behalf of any client, and is not available for direct investment. Past performance is not indicative of future results. Performance figures are presented on a gross basis and do not reflect fees, expenses, transaction costs, taxes, financing costs, or market slippage, all of which would materially reduce returns.

Total return figures may include estimated dividend income based on forward assumptions, which may differ from dividends actually received. The Index employs an equally weighted methodology and is rebalanced upon the addition or removal of constituents. Aurelion reserves the right to modify its research process or Index methodology at any time without notice.

The MSCI World Small Cap Index is used as the primary benchmark to reflect a global focus on smaller capitalization companies. Relative performance is calculated as the simple arithmetic difference between the Aurelion Index and the benchmark.

The analyst(s) responsible for this material certify that the views expressed accurately reflect their personal views and that no part of their compensation is related to the recommendations or opinions expressed. Aurelion operates independently and does not engage in investment banking, underwriting, mergers and acquisitions advisory, brokerage, or commission-based activities. Aurelion personnel may hold, buy, or sell securities discussed or included in the Index at any time, and such positions may be inconsistent with the views expressed.

This material may contain forward-looking statements, which are inherently uncertain and subject to known and unknown risks. Actual outcomes may differ materially. This material speaks only as of its publication date, and Aurelion undertakes no obligation to update or revise any information, opinions, or forward-looking statements.

Information has been obtained from sources believed to be reliable, including public disclosures, discussions with company management, and third-party data providers, but has not necessarily been independently verified. Aurelion assumes no responsibility for errors or omissions in third-party data. This material may be distributed through third-party platforms, and Aurelion is not responsible for formatting or display errors introduced by such platforms.

Investing in equities involves risk, including the possible loss of principal. The Index primarily reflects exposure to small and mid-capitalization companies, which may involve higher volatility, lower liquidity, and greater risk.
